Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/21/2007 has been entered.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record, namely, Iwata et al. (U.S. 4,514,826) and Ibaraki et al. (U.S. 5,617,476), do not disclose, teach or suggest, wherein said at least one of the signal processor modules stores within predetermined temporal periods in the memory unprocessed input data as input through the input port and processed data obtained by reading out and processing unprocessed input data stored in the memory a predetermined number of cycles before and outputs within the predetermined temporal periods through the output port unprocessed data and processed data stored in the memory the predetermined number of cycles before, and wherein the other signal processor module(s) stores within predetermined temporal periods in the memory unprocessed input data as input through the input port and processed data obtained by reading out and processing unprocessed input data stored in the memory a predetermined number of cycles before and outputs within the predetermined temporal

periods through the output port processed data stored in the memory the predetermined number of cycles before, or stores in the memory unprocessed input data as input through the input port and outputs through the output port unprocessed input data stored in the memory the predetermined number of cycles before, as claimed in independent claim 1.

The prior art of record, namely, Iwata et al. (U.S. 4,514,826) and Ibaraki et al. (U.S. 5,617,476), do not disclose, teach or suggest, a mounting means, on which a signal processor module is removably mounted, provided for at least one of the signal processor modules; and a switching means provided for said at least one signal processor module to transfer data to the signal processor module through its input port when it is mounted on the mounting means and to transfer the same to a component forward of the signal processor module when it is not mounted on the mounting means, as claimed in independent claim 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
